

Lyra

4K Vision with Ultra-Voice

Elevate your video calls and live streams with our flagship Lyra webcam — engineered to deliver 50MP image resolution for 4K visuals and studio-quality audio. With its 1/1.5" CMOS sensor, it delivers stunning 4K video, while the built-in microphone records 48 kHz/24-bit lossless audio and pairs directly with the LARK A1 wireless microphone without the need for a receiver. Enjoy AI tracking and auto-framing to stay centered. Switch between different virtual backgrounds to suit different scenarios. And customize your look with color correction magic and skin smoothing. Lyra helps you produce professional-quality content with ease.
